Fab&Fix reserves the right to change specification without notice  
It is the responsibility of the window manufacturer to ensure that the finished product meets any required safety and performance specification.

Maintenance
For continued protection of the quality finish and appearance, Fab&Fix advise routine cleaning of all our external hardware. Moving parts should also be lightly lubricated at least twice a year. This procedure is particularly essential if products are used within a 25-mile radius of coastal areas or close proximity to building sites or large industrial areas, where more frequent cleaning may be required to prevent the accumulation of corrosive contaminants.
