

### VS1 Classic Shootbolt Five Star Window Lock

#### Features

- A shootbolt locking system that has been designed to prevent attack on all 3 planes - back and forward, side to side, and up and down giving unattainable levels of security
- Non-croppable shootbolt locking system with a minimum of 8 points locking giving you the ultimate burglar deterrent
- Tested by an independant test laboratory to over 6,000N force; more than double the requirement of the PAS24: 2012 security test
- Heavy duty bolt has up to 300% of the contact area against competitor shootbolts thus providing the most secure shootbolt on the market
- Patented docking system of the bolt into the keep ensures smooth operation and prevents sideways movements of the bolt when under attack
- Compatible with standard zinc espag keeps or the unique Power Brace keeps; that have a weather resistant nylon base combined with a 2mm hardened steel plate for significantly increased performance
- Upgrade to enhanced security with 3D locking pins fitted to the shootbolt and extended Power Brace keeps for upto 11 locking points
- Developed to withstand even the most determined intruder attack

Shootbolt

#### Technical Information

##### Corrosion resistance

Meets the requirements of BS EN 1670:2007 Grade 5 (480 hours)

##### Operation

Tested in excess of 50,000

##### Performance

Tested independently to 6000n force, twice that of the usual PAS24:2012 test requirements

#### Material Specification

Bars:	High quality steel, Zinc plated, Trivalent passivated and seal
Keeps:	High quality steel, Zinc plated, Trivalent passivated and seal or Composite keeps with steel top plates
Shootbolts:	High quality steel

#### Packaging

##### Locks

20 locks per box

##### Keeps

20 keeps per box

#### Maintenance

All moving parts should be lightly lubricated using a light non-acidic mineral oil (e.g "3 in 1") twice per year and the surface cleaned with a soft damp cloth. The product may need to be adjusted and fixings tightened to ensure a satisfactory operation.
